

# Curbside Phlebotomy and Lab Collection Sites

(NOT COVID-19 testing)

June 15, 2020

**Collection hours vary by site and collections are performed only in weather that is safe for patients and phlebotomists.**

\* Registration process requires a cell phone. Please be sure to have a cell phone device with you before presenting.

For the safety of our patients and employees, we ask that you refer to our Intermountain Curbside Phlebotomy only those patients meeting one or more of the criteria listed below:

- Patients ages 60 years or older
- Patients with Diabetes
- Patients with chronic lung disease or moderate to severe asthma
- Patients with heart disease or pulmonary disease with underlying or chronic condition
- Patients who have had bone marrow or organ transplantation or have immune deficiencies, including cancer treatment
- Pregnant Woman (3 Hour Glucose testing is not offered curbside)
- Patients suspected of COVID-19 or currently experiencing respiratory symptoms
- Pre-surgery testing is not offered curbside
- Patients with a same day in-clinic visit do not qualify for curbside phlebotomy
