

Below are the hours and contact information for the UCHealth Memorial North and Central Sendout Departments. Most sendout tests can be accessed through the UCHealth South Region Laboratory Test Directory:

[UCHealth South Region Laboratory Test Directory | Home](#)

Unfortunately, due to the vast number of sendout tests available, not everything can be included in the Laboratory Test Directory (e.g., miscellaneous tests, miscellaneous genetics tests, etc.). If you have a question regarding a sendout test, please call either department during business hours for the most accurate information.
