Sterile Cup	

Supply Order Information

- **Avoid expired supplies**
Please perform a weekly supply inventory. Order quantities needed for 1–2 weeks.
You may order smaller quantities of supplies. We will deliver a handful vs. an entire flat of blood collection tubes.
Example: Under QTY write in **6 tubes**.
- Submit all supply orders by fax to 237.7592 and supplies will be delivered within 2 days. Supplies cannot be delivered STAT.
- Basic collection supplies will be delivered at no charge for specimens being returned to UCH for testing. UCH tracks the number of tests being ordered by your office on a monthly basis and compares that to the amount of supplies being delivered.
- Items not listed on this form are typically not available through UCH and should be ordered through your office supply vendor. If you perform testing in your office, please purchase those supplies through your vendor.
