

## DEPARTMENT NAME

Immunochemistry

## GENERAL INFORMATION

<b>Hours of Operation:</b>	Monday-Friday: 0700-2100
<b>Location:</b>	Room B403, RRUCLA
<b>Phone:</b>	Results/Reports: (310) 267-8100
<b>Fax:</b>	(310) 825-0077
<b>Key Personnel:</b>	Chief, Clinical Chemistry: Lu Song, PhD (310) 267-8169
	Laboratory Manager: Diana Crary, CLS (310) 267-8120

## SPECIMEN DELIVERY

All specimen should be delivered to Support Services in 200 Medical Plaza, Suite 145 or via pneumatic tubes located throughout the Medical Center. Specimens referred from outside clinics or institutions should be send to the following address:

Ronald Reagan-UCLA Medical Center, Westwood

Clinical Laboratory, Specimen Processing

200 Medical Plaza, Suite 145

Los Angeles, CA 90095

## TEST AVAILABILITY

Routine testing is available Monday-Friday. Specimens are reported once each weekday. Stats are not routinely performed, but are available by consult.

## TESTING

The Clinical Immunochemistry section of the Department of Pathology and Laboratory Medicine provides comprehensive testing for a wide range of hormones and serum proteins by immunochemical techniques.

Immunochemical tests are available to evaluate the following:

- Pituitary function
- Thyroid function
- Adrenal function
- Gonadal function
- Inflammatory diseases
- Nutritional status
- Tumor marker levels
- Serum protein levels
- Immunoglobulin levels
