SPECIMEN DELIVERY

- **Clinical specimens** should be delivered immediately to the Outreach Clinical Laboratory, Receiving/drop off area back door near loading dock.
- **Surgical pathology and cytology specimens** will be forwarded to the Anatomic Pathology Laboratory via RRH UCLA Specimen Processing. Weekends, holidays, and after hours, deliver to the Clinical Laboratory. Miscellaneous referral lab testing will also be delivered to RRH UCLA Specimen Processing.

STAT AND ROUTINE TESTING

Stat and routine testing are available Monday – Friday 0600-0230, Saturday 1000-2230, and Sunday 1200-2030 for specimen processing and receiving only (testing performed at RRH).

The Outreach Clinical Laboratory performs routine chemistry, hematology, urinalysis, coagulation, and allergy testing.

Routine chemistry tests are available to evaluate the following:

- Acid-base balance (electrolytes, blood gases, co-oximetry)
- Lipid metabolism
- Renal function
- Liver function
- Pancreatic function
- Acute coronary syndrome
- Congestive heart failure
- Iron status

Routine hematology tests are available to evaluate the following:

- Erythrocyte sedimentation rate
- Reticulated platelet fraction (immature platelet fraction [IPF])
- Reticulocyte count
- Complete blood count (CBC) including platelet count (PLT)
- Peripheral blood cell differential
- RBC morphology

Coagulation studies include but are not limited to:

- D-Dimer
- PT and APTT
