DATE: October 24
RE: Flow Cytometry Send-out Testing

Effective October 24, 2022 the following tests will be outsourced to the Children's Hospital of LA reference laboratory as a result of a communication from the University of Washington stating the laboratory is no longer accepting samples:

- **ALL MRD – Children's Hospital of LA**

The AML MRD will continue to be sent to Hematologics.

The sample must be sent with the requisition. Results will automatically populate in Pennchart following their completion at the reference laboratory.
