

Inpatient TSH Cascade Order Changes

Effective **November 18, 2020**, the following order changes occur as part of the **TSH Cascade** implementation.

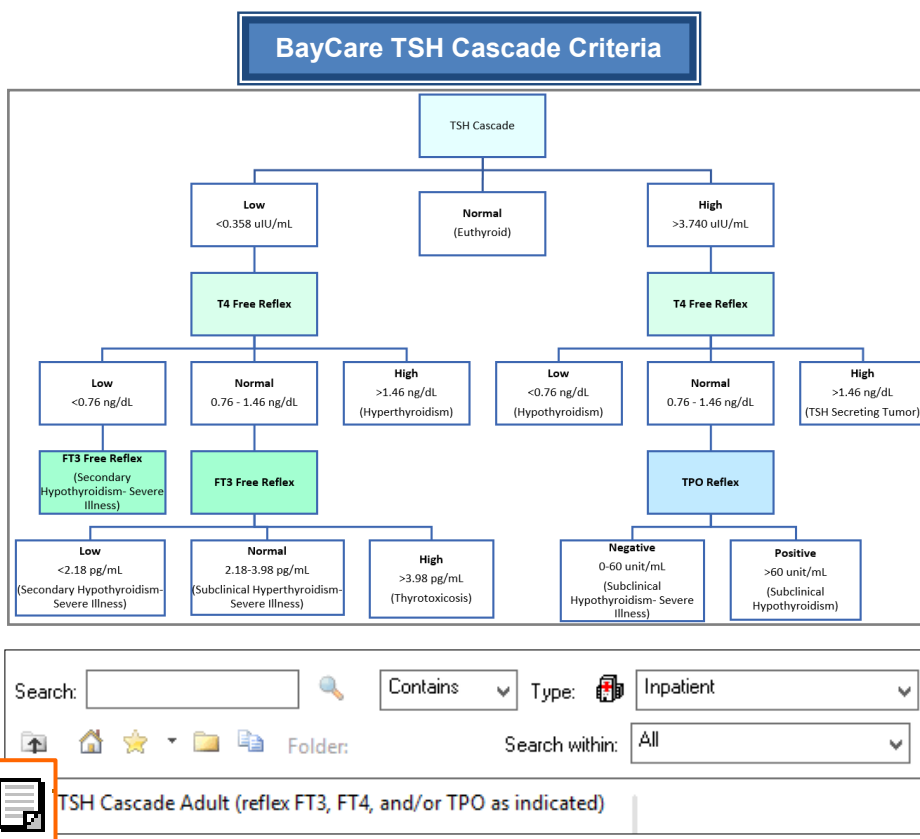

New Orders

New Tests	Notes
TSH Cascade Adult (reflex FT3, FT4, and/or TPO as indicated)	Replaces the TSH reflex T4 Free order. For Adult usage only.
TSH (Peds Only)	Replaces the TSH third generation order. For Peds usage only.

The TSH Cascade Adult (reflex FT3, FT4, and/or TPO as indicated) replaces the TSH reflex T4 Free as the primary thyroid screening test.

All possible reflexed tests are based on the results of the reflex algorithm.

The information above can also be found in the reference text attached to the order in PowerChart.

Primary Orders

Note: If any of the orders are saved in a *Favorites* folder, they need to be resaved after the updates are applied.

Previous	New
Thyroid Peroxidase Antibody	TPO (Thyroid Peroxidase Antibody)
