

Genital Affirm Test Discontinued

BayCare Laboratories/All BMG, BUC, and Outreach

Effective **February 1, 2023**, the **Genital Affirm** test is discontinued. This test is not recommended by BayCare as a marker for Vaginitis/Vaginosis due to low specificity.

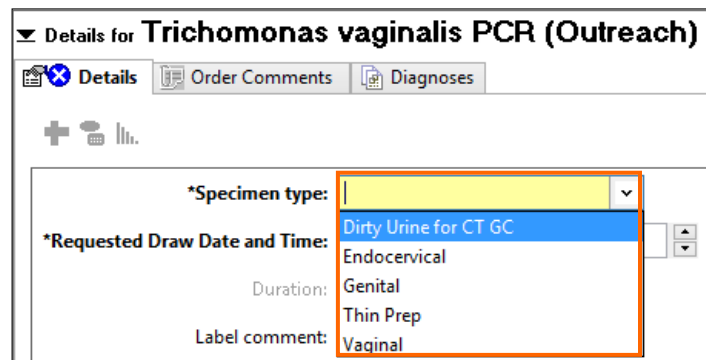

Replacement tests at BayCare include the following:

- **Trichomonas vaginalis PCR (Outreach)**
- **Mycoplasma genitalium/Trichomonas vaginalis PCR (Outreach)**

Both tests can be collected using the same Roche swabs or specimen types used for Chlamydia/GC DNA Outreach.

Specimen Types:

- **Dirty Urine** (Male and Female)
- **Endocervical**
- **Genital**
- **Thin Prep**
- **Vaginal**
