

Consolidated Laboratory Services Surgical Pathology

Nowhere is the clinician more dependent on a laboratory's expertise than in surgical pathology. Surgical Pathology represents a consultation with a specialist in microscopic diagnosis rather than another laboratory test. St. Vincent's Pathology Associates, P.A. provides comprehensive diagnostic pathology services, including surgical pathology and cytopathology.

Brett Cantrell, M.D.

A graduate of Medical University of South Carolina, Dr. Cantrell served an anatomic pathology residency at Johns Hopkins Hospital in Baltimore, where he served as Chief Resident and Chief Surgical Pathology Resident along with research experience in immunopathology. He was a fellow of the American Cancer Society at Memorial Sloan-Kettering Cancer Center in New York City. He is board certified in anatomic pathology, with special interests in gastrointestinal pathology and genitourinary pathology.

Don DeStephano, M.D., Ph.D.

A graduate of the University of Georgia and Medical College of Georgia, Dr. DeStephano trained in anatomic and clinical pathology at the University of Michigan. He has special interests in immunohistochemistry, immunology, urologic pathology, cytopathology, and gastrointestinal pathology. He completed additional training in flow cytometry and chromosome analysis, and was instrumental in bringing virtual flow cytometry capability to the laboratory. He is board certified in anatomic and clinical pathology.

Ricardo Ramos, M.D.

A graduate of Florida State University and the University of Florida College of Medicine, Dr. Ramos trained in anatomic and clinical pathology at Barnes Hospital and St. Louis University, with fellowships in transfusion medicine and cytopathology. He completed a clinical fellowship in fine needle aspiration biopsy at Karolinska Institute in Stockholm. Dr. Ramos was an assistant professor and the Director of Cytopathology at St. Louis University Medical Center before coming to St. Vincent's Medical Center. He is board certified in anatomic and clinical pathology, transfusion medicine, and cytopathology.

Anne Bernstein, M.D.

A graduate of the University of Georgia and the Medical University of South Carolina, Dr. Bernstein received her degree and training in anatomic and clinical pathology from the Medical University of South Carolina, where she served as Chief Anatomic Pathology Resident. She trained with Dr. John Maize, Professor and Chairman for the Department of Dermatology and Dermatopathology, during a fellowship year in dermatopathology. She is board certified in anatomic, clinical, and dermatopathology, with special interests dermatopathology and general surgical pathology.

Michael Lehman, M.D.

After graduating from the University of Toledo with a Chemical Engineering and a Medical Degree, Dr. Lehman trained in Anatomic and Clinical pathology at The Cleveland Clinic in Cleveland, Ohio, becoming Board Certified in 2004. . As an officer in the US Navy, he served as the Medical Director of the Laboratory at Naval Hospital Jacksonville, then as the Head of Surgical Pathology at the National Naval Medical Center in Bethesda, Maryland, where he was also adjunct faculty of the Uniformed Services University of Health Sciences.
