

Reflex Testing

Test	Reflex Test
Antinuclear Antibodies (ANA)	Antinuclear Antibodies (ANA) Titer
Anti-Streptolysin O (ASO) Screen	Anti-Streptolysin O (ASO) Titer
Creatine Kinase (CPK)	CK-MB (if CK >100)
Direct LDL (Low Density Lipoprotein)	Direct LDL-Cholesterol if TG >400
Fetal Blood Screen	Kleihauer-Betke
Hepatitis B Surface Antigen (HBsAg)	HBsAg Confirmation by Neutralization Assay
Hepatitis C Antibody (Anti-HCV)	Hepatitis C Antibody Confirmation by RIBA (ONLY if equivocal – Reactive are not sent out)
HIV-1/2 and P24 Antigen	HIV 1 and 2 Confirmation
Lyme Antibody	Western Blot Confirmation
Mitochondrial Antibodies (M2)	AMA Titer
Strep Screen (Group A Throat), Rapid	Strep Culture
Syphilis Screen, Rapid Plasmin Reagin (RPR)	Fluorescent Treponemal Antibody Absorption
Type and Antibody Screening (TASNB) <i>Outpatients</i>	Antibody Identification
Type and Antibody Screening (TAS) <i>Surgical patients</i>	Antibody Identification & 1 unit of crossmatch compatible blood
Urinalysis, Dipstick Only (UADC)	Culture & Sensitivity (C&S) done if Leukocyte Esterase or Nitrate is positive
Urinalysis, Reflex to Microscopic if Indicated (UA)	Microscopic done if Hemoglobin, Protein, Leukocyte Esterase or Nitrate is positive.
Urinalysis, Reflex to Culture if Indicated (UAUCC)	Microscopic done as above in UA. C & S done as above in UADC
