An Important Update from Legacy Laboratory Services

December 2023

Delayed Cytology PAP Test Results

Due to ongoing critical staffing shortages in the Cytology department the estimated turn-around time for PAP test results is 14-21 business days or longer based on availability of qualified cytologists to review cases.

Delays are expected to continue until critical staffing shortages ease and/or other mitigation plans can be implemented.

For patients with extenuating circumstances, clinician inquiries can be directed to laboratory client services and/or Allison McClean, Cytology Supervisor.

Thank you for your patience and understanding.

For additional information, please contact your account representative, client services or consult [the test table](#) on our website.
