Legacy LabAlert

January 2024

An Important Update from Legacy Laboratory Services

As Legacy Laboratory transitions to Labcorp, send out orders will be converting from ARUP and Mayo to Labcorp. These changes will occur and will be starting **February 5, 2024**.

This change of reference laboratory testing represents 2-3% of the total volume that is referenced outside the local Legacy core laboratory for the entire health system. There is not any impact to any of the testing being performed in the local Legacy core laboratory with this change. Other send out labs will not be impacted, other than a \$25 handling fee will be charged to your clinic.

As these updates have been rolled out, your Key Account Executive (KAE) (previously, Account Service Representative) have been in direct communication with your practice on any of the specific tests that would impact your practice. Your KAE is available to discuss this change if you have further questions. If you do not know who your Key Account Executive is, please reach out to Roxann Mike at (503) 593-8911 or Miker1@labcorp.com and she can assist you.

For additional information, please contact your account representative, client services or consult our website:
