

Glucose Tolerance Testing

Test	Glucola	Fasting	30min	60min	120min	180min	240min	300min	Soft Code
				1hr	2hr	3hr	4hr	5hr	
60min OB Glucose Challenge	50 grams			X					GLCH
3hr OB Challenge	100 grams	X		X	X	X			GL301
2hr Post Prandial*	none-eats meal				X				GL2PP
2hr Glucose Tol Non-Pregnant	75 grams	X			X				GL2N1
3hr Glucose Tolerance**	100 grams	X	X	X	X	X			GL3R
4hr Glucose Tolerance	100 grams	X	X	X	X	X	X		GL4R
5hr Glucose Tolerance	100 grams	X	X	X	X	X	X	X	GL5R
2hr Dr. Foreman Glucose Tol	75 grams	X	X	X	X				GL2M

For children, the glucola dosage needs to be designated by the ordering MD as it is determined by weight of the child.

*If fasting bloodwork is also ordered, order and draw fasting. When patient comes back 2hrs after meal, order 2hr Post Prandial.

**For a GTT 3hr or more, patients can go to any PSC but they must call the PSC to set up an appointment.

These are the typical test guidelines. If a clinician specifies different time points or glucola dosing then follow the clinician's directions for the test.
