Hemoglobin Evaluation by HPLC with Reflex to Electrophoresis and/or RBC Solubility

07/06/2026

Please note, for the new test Hemoglobin Evaluation by HPLC with Reflex to Electrophoresis and/or RBC Solubility, ARUP requires a Patient History for Hemoglobinopathy/Thalassemia testing form to be completed. To ensure there are no delays in testing, this form should be sent with the specimen to the lab.

The form will be linked to the test within Meriter Laboratories' test catalog. Please see the link for the form below:
