Patient Information			Ordering Provider	
Last Name:	First Name:	MRN#:	Provider Name:	
Date of Birth:	Patient Sex: ☐ Male ☐ Female	Unit Location:	Provider Signature:	
Collector Name:	Collector CWID:	Unit Phone #:	Provider CWID:	
Order Date & Time:		Collection Date & Time:	Provider Phone:	
Timed Urine Volume: Hours:		Pneumatic Tube #:	BODY FLUID / CSF (Sterile Container)	
CHEMISTRY (SST Gold Top Tube)			FLUID TYPE and/or SOURCE:	
Basic Metabolic Panel (BMP): Na, K, Cl, BUN, Creat, Glu, CO ₂ , Ca			Cell Count	
Comprehensive Metabolic (CMP): (= BMP + Hepatic Panel excluding Direct Bilirubin)			Protein	
Hepatic Panel: T.Bili, D. Bili, ALT, Alk Phos, AST, Alb, T. Protein			Glucose	
Lipid Panel: Cholesterol, Triglycerides, HDL, calc LDL			Culture (circle applicable: routine / fungal / anaerobe)	
Iron Panel: Iron, UIBC, TIBC, Ferritin			URINE TESTING	
Acetaminophen	Procalcitonin	Drugs of Abuse, Urine no confirm (BD Clear Top Tube)		
Albumin	Protein, Total	Maternal/Neonatal Drugs of Abuse (BD Clear Top Tube)		
Alcohol (ETOH)	PSA	UA w/ reflex to Microscopic (UAR) (Speckle Urine Tube)		
Beta-HCG, Quantitative	Salicylate (Aspirin)	UA w/ Microscopic (UAC) (Speckle Urine Tube)		
Beta-hydroxybutyric Acid (BHA)	Sodium	UA w/ reflex Culture (UAM) (Speckle and Gray Tubes)		
Bilirubin, Total	Syphilis (T. Pallidum Ab)	Urine Protein Creatinine Ratio (BD Clear Top Tube)		
Bilirubin, Direct	Tacrolimus	HEMATOLOGY (Lav EDTA Tube)		
Bilirubin, Total, Neonatal	Tobramycin	CBC		
Bilirubin, Direct, Neonatal	TSH reflex to FT4	CBC w/ Auto Diff.		
BUN (Blood Urea Nitrogen)	Uric Acid	Reticulocyte Count		
Calcium (Ca)	Vancomycin	Sedimentation Rate (ESR)		
Creatine Kinase (CK)	Vitamin B12	SPECIAL COAG (Contact Lab for Tube)		
Cardiac CRP (aka HS CRP)	Vitamin D, 25-Hydroxy	Aspirin Resistance		
Creatinine		P2Y12		
CRP (Inflammation)		COAGULATION (Light Blue NaCit Tube)		
Digoxin		APTT (Activated Partial Thromboplastin Time)		
Ethanol	Heparin Syringe	D-Dimer		
Folate	Blood Gas: (circle one: arterial / venous)	Fibrinogen		
Gentamicin	Blood Gas co-oximetry	Heparin Level (anti-Xa)		
Gamma-Glutamyl Transferase (GGT)	Calcium, Ionized (iCa, Ca ²⁺ , Ca ⁺⁺)	PT/INR (Prothrombin Time with Int. Normalized Ratio)		
Glucose	Cord Arterial Blood Gases	ADDITIONAL TESTING		
Lactate Dehydrogenase (LDH)	Cord Venous Blood Gases	(Reference Online Test Directory via the Infonet)		
Lipase	Lactate, Whole Blood			
Lithium	Lav EDTA Tube			
Magnesium	Ammonia (on ice)			
Neonatal RPR	HIV 1,2, P24 Screen			
NT-proBNP	PTH intact			
Phenobarbital	Special Collection			
Phosphorus	Fetal Fibronectin (Rapid fFN kit)			
Potassium (K)	Troponin-T, High Sensitivity (Lithium Hep)			
MICROBIOLOGY (contact lab for collection container)				
Blood Parasites	Culture, VRE			
C. diff PCR with reflex	Culture, Wound source:			
CT/GC and/or Trichomonas PCR	Gastrointestinal Pathogen PCR Panel			
Cryptococcal Antigen	Legionella Urine Antigen			
Culture, Blood	MRSA Epi Surveillance (NICU only)			
Culture, Respiratory	SARS, Flu A/B, RSV (4-plex) NAAT			
Culture, Tissue/Biopsy source:	Sputum AFB			
Culture, Urine (Peds Only)				

Internal Lab Use
