

**TESTS APPROVED FOR PERFORMING WITH  
A STAT PRIORITY - SYSTEMWIDE**

Acetaminophen, quantitative, plasma	HCG, quantitative, plasma
Alcohol, quantitative, plasma	Hemogram (automated)
Activated clotting time	Hepatic function panel
Albumin, plasma	Hepatitis B surface antigen, maternal
Alkaline phosphatase, plasma	Heparin-induced Thrombocytopenia, Rapid Ab (LJ)
Ammonia, plasma	Heparin Xa and Low Molecular Heparin Xa)
Amylase, plasma	HIV rapid antibody screen
Alanine aminotransferase (ALT)	Influenza A and B & RSV by PCR
Aspartate aminotransferase (AST)	Lactate dehydrogenase, plasma & BF
Aspirin resistance, platelet inhibition	Lactic acid, plasma & whole blood
B- type natriuretic peptide (BNP)	Lipase, plasma
Beta-hydroxybutyrate (acetone/ketones)	Lithium
Basic metabolic panel	Magnesium, plasma
Bilirubin, total	Malaria smear (Blood Parasite)
Bilirubin, direct	Mono screen (Monospot)
Blood culture (phlebotomy only)	Occult Blood, fecal & gastric
Blood gases and co- oximetry, arterial & venous	Osmolality, serum & urine
Blood type, ABO & Rh	P2Y12 receptor inhibition (Plavix)
Calcium, plasma	Parathyroid hormone, intra-operative
Calcium, ionized, whole blood	Partial thromboplastin time, activated (APTT)
Carbamazepine, quantitative, plasma	Phenytoin (Dilantin)
Compatibility testing for blood product transfusion	Phenobarbital, quantitative, plasma
Complete blood count (hemogram & differential)	Phosphorus, plasma
Cell count and differential, body fluids, synovial fluid & CSF	Platelet cell count
Comprehensive metabolic panel	Pregnancy screen (qualitative HCG), serum & urine
COVID 19 SARS Co-V-2 rapid antibody testing	Procalcitonin
CK, total, plasma	Prothrombin time (PT)
CKMB	Reticulocytes
Creatinine, plasma	RPR screen and titer (L&D no-prenatal care only)
C- Reactive Protein, inflammatory	Salicylate, quantitative, plasma
Compatibility testing for blood product transfusion	Sirolimus
D-dimer, quantitative	Strep A antigen rapid detection
Digoxin	Tacrolimus
Drugs of Abuse screen, urine	Thrombo-elastogram (TEG)
Electrolytes, plasma (Na, K, Cl, CO2)	Theophylline
Fetal fibronectin	Thrombin Time
ESR	Thyroid stimulating hormone
Everolimus	Tobramycin
Fern	Total Protein, plasma & CSF
Fibrinogen	Troponin I
Fibrin split products	Urea nitrogen, plasma
Gentamicin	Uric acid, plasma
Gamma glutamyl transferase (GGT)	Urinalysis
Glucose, quantitative, plasma & CSF	Valproic acid
Gram Stain	Vancomycin
	Wet Mount – vaginal

**These are tests that can be sent STAT to Sorrento Mesa Core Laboratory.  
For tests not on this list (see previous page) send to the nearest Scripps laboratory.**

**TESTS APPROVED FOR PERFORMING WITH A STAT PRIORITY – SORRENTO  
MESA**

Albumin, plasma	Hepatic function panel
Alkaline phosphatase, plasma	Lactate dehydrogenase, plasma & BF
Ammonia, plasma	Lactic acid, plasma
Amylase, plasma	Lipase, plasma
Alanine aminotransferase (ALT)	Lithium
Aspartate aminotransferase (AST)	Magnesium, plasma
B- type natriuretic peptide (BNP)	Malaria smear (Blood Parasite)
Basic metabolic panel	Mono screen (Monospot)
Bilirubin, total	Occult Blood, fecal
Bilirubin, direct	Partial thromboplastin time, activated (APTT)
Calcium, plasma	Phenytoin (Dilantin)
Carbamazepine, quantitative, plasma	Phosphorus, plasma
Complete blood count (hemogram & differential)	Platelet cell count
Cell count and differential, synovial fluid	Pregnancy screen (qualitative HCG) serum & urine
Comprehensive metabolic panel	Prothrombin time (PT)
CK, total, plasma	Reticulocytes
CKMB	Sirolimus
Creatinine, plasma	Tacrolimus
D-dimer, quantitative	Theophylline
Digoxin	Thrombin Time
Drugs of Abuse screen, urine	Tobramycin
Electrolytes, plasma (Na, K, Cl, CO2)	Total Protein, plasma
Fetal fibronectin	Troponin I
Fibrinogen	Urea nitrogen, plasma (BUN)
Gentamicin	Uric acid, plasma
Gamma glutamyl transferase (GGT)	Urinalysis
Glucose, quantitative, plasma	Valproic acid
Gram Stain	Vancomycin
HCG, quantitative, plasma	Wet Mount – vaginal
Hemogram (automated)
