

ASCENSION MICHIGAN LABORATORY SERVICES STAT LIST

ABO Type & Screen	Fibrinogen
aPTT	Fibrin Degradation Products
AST (SGOT)	Gentamicin
Acetaminophen	Glucose
Alcohol (Ethyl)	Hemoglobin/Hematocrit
Alkaline Phosphatase	Hepatic Function Panel
Amikacin	Iron/TIBC (Overdose)
Amylase	Lactic Acid
Ammonia	LDH
Barbiturates (Urine Drug Screen recommended)	Lithium
Basic Metabolic Panel	Magnesium
Beta-HCG (Qualitative, Serum or Urine)	Methemoglobin
Beta-HCG (Quantitative, Serum)	Methotrexate
Bilirubin, Total	Mono Spot
Bilirubin, Neonatal	Osmolality (Urine)
Calcium	pH/Blood Gases
Calcium, Ionized	Phenobarbital
Carbamazepine (Tegretol)	Progesterone
Carbon Monoxide	Prothrombin Time (PT)
CK (Creatinine Phosphokinase)	Retic Count
CKMB	Salicylate
CBC (Complete Blood Count)	Sickle Cell
Comprehensive Metabolic Panel	Spinal Fluid (Chloride, Glucose, Protein, Gram Stain)
Creatinine (Serum or Urine)	Theophylline
Cell Count on: Spinal Fluid, Body Fluid, Synovial Fluid	Thrombin Time
D-Dimer	Tobramycin
Digoxin	Troponin-T
Dilantin (Phenytoin)	Urea Nitrogen
Dilantin, Free	Uric Acid
Electrolytes (Serum or Urine)	Urine Drug Screen
Sodium	Valproic Acid
Potassium	Vancomycin
Chloride	
CO2 (serum only)	
Estradiol	
Fetal Fibronectin	

Ascension Michigan Laboratory services offers a limited number of laboratory tests that are provided on a STAT basis. However, it is emphasized that the following list of STAT procedure does not preclude other emergency procedures which the physician may consider vital to the diagnosis and treatment of their patient. When the attending physician feels it is mandatory that a procedure be performed, other than those indicated on the list, they may review this with our Medical Director at (800) 863-5959.

STAT courier pickup is limited to the above testing only, microbiology, urinalysis or frozen specimens will not receive that service.

19251 Mack Avenue, Ste. LL60
Grosse Pointe Woods, Michigan
