

Laboratory Testing Update

The following order request has been temporarily diverted to reference laboratory (ARUP) for testing due to test platform supply constraints.

Group B DNA (LAB4697)

Until further notice, all Group B DNA PCR testing (aka Genital Group B Strep) will be routed to and performed at ARUP reference lab.

Order, Collection, Transport, and Sources remain unchanged for Group B DNA PCR testing.

Turnaround time for test results at ARUP reference laboratory is 3-4 days from receipt into the lab.

Any questions, please contact the Microbiology lab at 859-301-2074

Thank you,
Renee
