

## Laboratory Test Update

**Date: 11/1/2023**

**RE: PT/INR Reference Interval**

Effective November 1, 2023, the Reference Intervals for PT and INR will change.

<b>Parameter</b>	<b>Old Reference Interval</b>	<b>New Reference Interval</b>
<b>PT</b>	10.0-13.1	10.5 -13.6
<b>INR</b>	0.86-1.12	0.89-1.16

The lab changed PT reagent lots on November 1, 2023. The new reagent lot has a different ISI value and geomean. This necessitates the change in PT and INR Reference Intervals.

If you have any questions concerning this update, please contact Chris Sullinger, Hematology Manager, at 859-301-0792.
