Clinical Genomics – Integrated Tumor and Germline Order Change

Effective Date: 6/27/2023

Test Change Notification Date: 6/27/2023

Notification sent by: Randall Hayden, MD

Groups Notified: All Clinical Providers, Pathology, Nursing Services, Epic Applications Managers, Epic Beaker Team

Details of Change

Beginning June 27th, the current Clinical Genomics Testing – Integrated Tumor and Germline order will be split into two separate orders within the same order panel. This change was required to allow for specimen collection and scheduling considerations.

▼ Clinical Genomics Testing

☒ Select One of the Following:

☒ Clinical Genomics Testing – Integrated Tumor and Germline

☒ Ambulatory referral to Genetics 
Internal Referral, Expected: 9/16/2023 (After Procedure), Expires: 7/16/2024
