

## Can't find it in the Catalog??

**\*The lab catalog is an informational tool – lab orders are not placed through the catalog\***

If you do not see your desired test in the Catalog:

- Order a **MISC** test and enter the desired test name in the comments
- Be as specific as possible about the test you want:
  - If testing must be performed at a specific facility, please let lab know!
  - Please include the test number used at the desired reference facility if you know this information
- Submit your order for a **MISC** test; Lab will contact you if we still have questions about which testing you want!
