New Test: Borrelia (Lyme) Antibodies, Total with Reflex

Dear Healthcare Provider,

Beginning **January 20, 2026**, Preferred Lab Partners consolidated the LYME AB TOTAL W REFLEX TO IGG/IGM, Early Disease [LAB4230] and LYME AB TOTAL W REFLEX TO IGG, Late Disease [LAB4231] to one orderable procedure, **BORRELIA (LYME) ABS, TOTAL W/ REFLEX TO IGG & IGM [LAB15335]**, due to uncertainty of when a patient's self-reported symptoms start. All positive/equivocal LYME AB TOTAL tests will reflex to a LYME AB IGM and LYME AB IGG confirmation immunoassay.

For questions or concerns, please contact Sajini Mathew, MD, Medical Director, TriHealth Laboratories.
